Dear Sirs and Madams:

I want you to know how much I enjoy XM Radio and the traffic and weather channels. As I travel through big cities, it is hard at best to know where to go for up to date information regarding traffic and weather. I use XM exclusively travelling cross country. This benefit is especially important to folks like me from small town Montana when navigating safely through big cities.

I find that the quality of XM as well as the variety I get I can only find elsewhere is Sirius Satellite Radio. I especially enjoy Hank's Place on XM Radio. Just cant seem to find the fidelity-sound-as well as programming that is available on XM Radio.

I have opted to pay for XM Radio voluntarily. It should not be up to others to limit what I can hear and where.

Please REJECT NAB's petition 04-160.

Sincerely,

Donald V. Nedrud
